Tile for Your Story.

FIRED BY IMAGINATION

Stories for Life.

A close-up photograph of a person's hand holding a blank, light brown paper cover of a book. The hand is positioned on the left side of the frame, with fingers gripping the edge of the cover. The background is a light blue and white geometric pattern. Overlaid on the right side of the cover is a quote in a dark grey font, accompanied by two small orange squares.

“There’s always room for a story
that can transport people to another
place.”

JK Rowling

*"Some people tell stories with a pen.
Others tell them with a paintbrush.
You can tell them with a tile or a few, and transform a space into a
statement of who you are.
Where you've been.*

*And how you wish to live.
When you are fired by imagination, you could also turn it into an inspira-
tion for the masses to meet.
For ideas to mingle.*

*Wonder to happen.
And for moments to become history.*

With tiles, you are the artist.

The storyteller.

And the keeper and creator of the memories that matter.

That's what we make them for."

Once Upon a Tile

40 years ago, we embarked on an adventure to create and share the beauty of tiles with the world.

Today, we still hold on to the belief that they're canvases to bring your imagination to life.

The knowledge and experience we've gained over the years in markets like Malaysia and Australia goes into the tiles we make. So you can be sure that each and every one stands up to the demands of everyday use.

With our diverse range of tiles and bespoke design service, you also have the flexibility of expressing your ideas and individuality easily. No matter the type of project or space you're working on.

This means that when you use our tiles, you'll have the confidence to design spaces for life's stories to unfold, or create those which are inspired by what you've already experienced.

So whatever your story may be, tell it beautifully with Johnson Tiles.

Perfection, Product & People

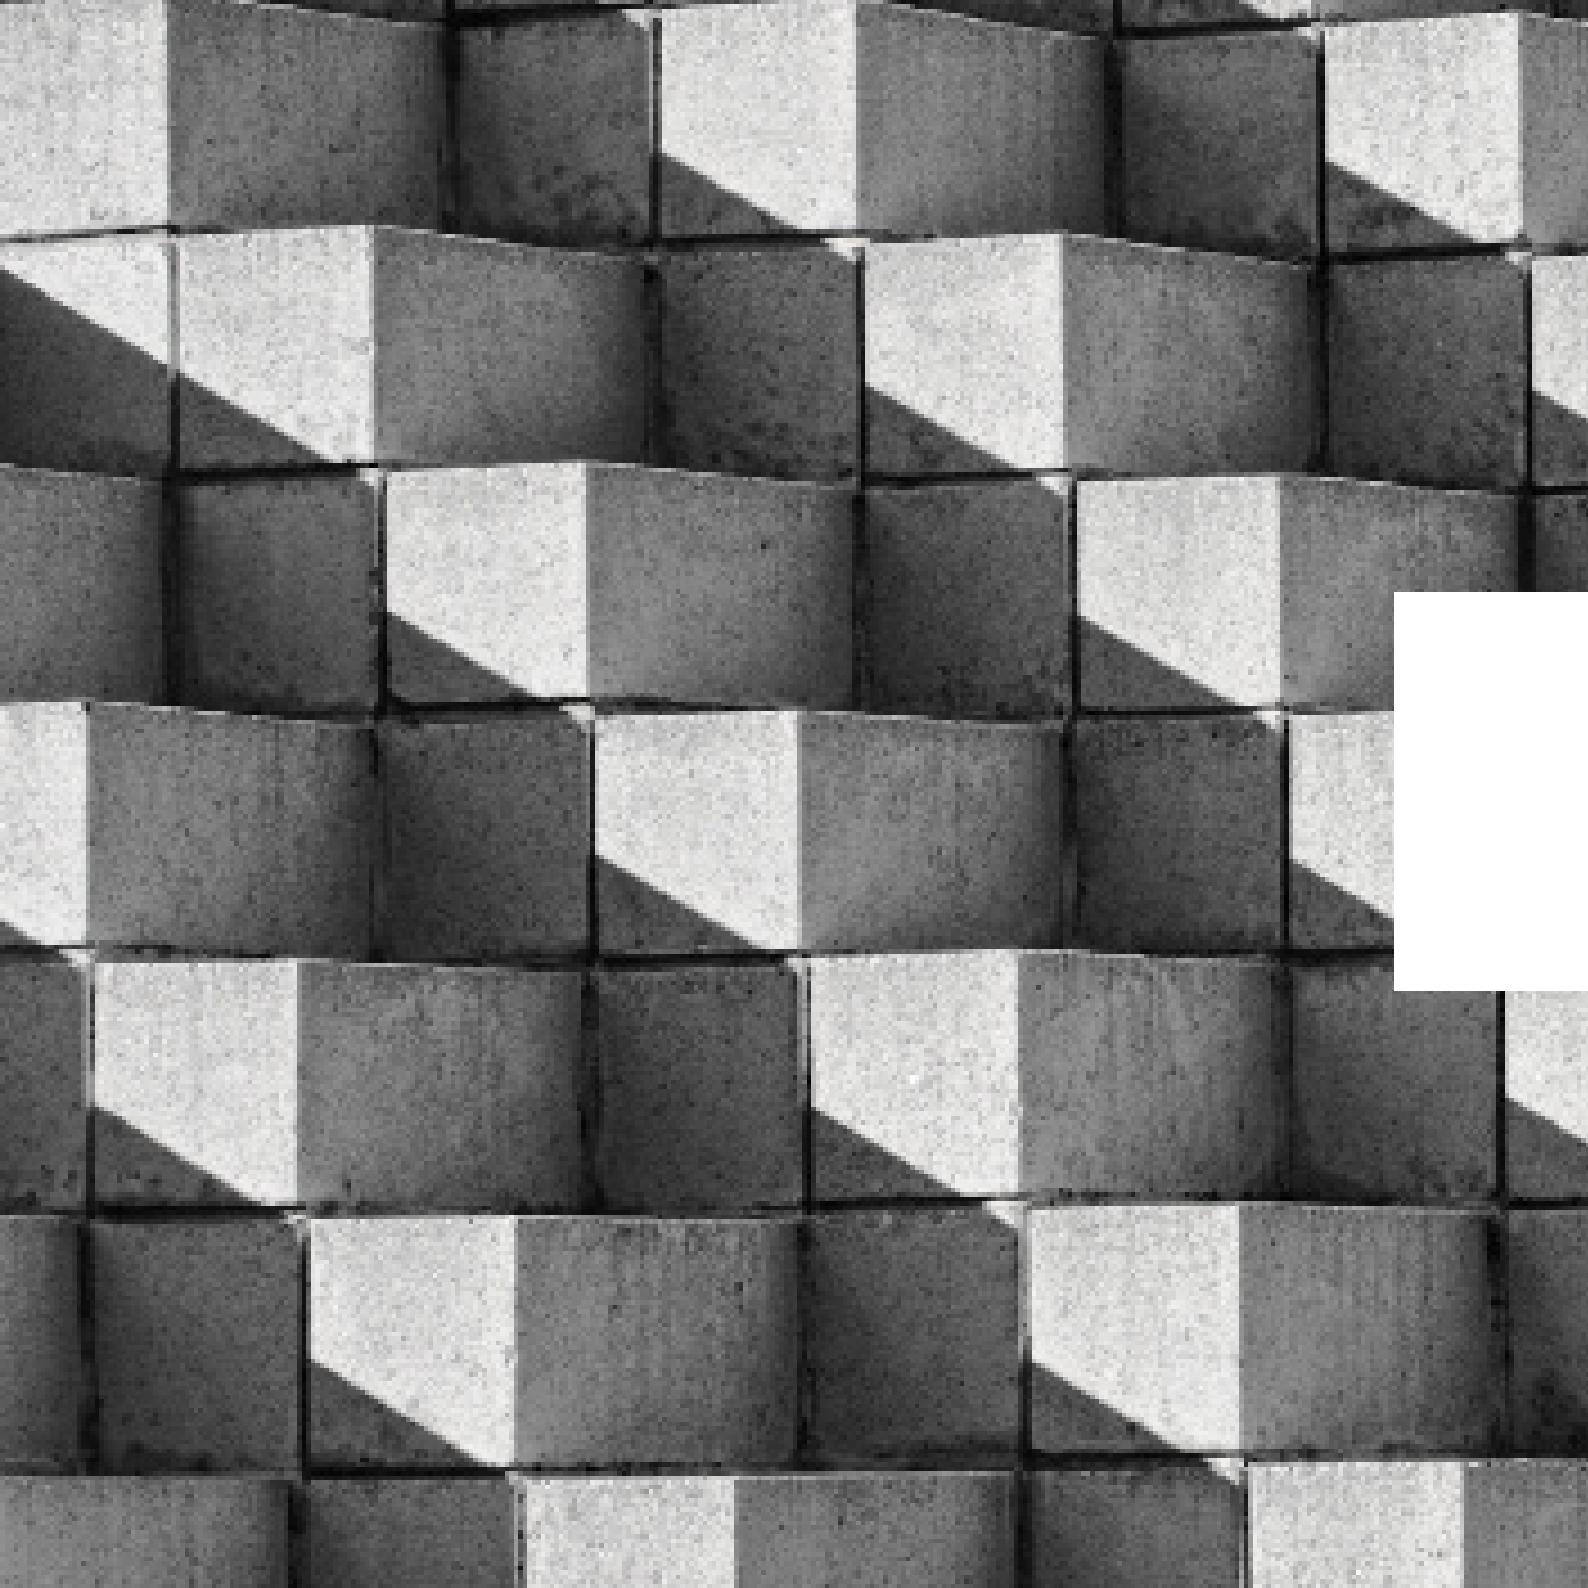

It's easy to make things, but much more difficult to maintain excellence. For over 40 years, our ISO-certified factories have consistently created high-performance tiles for commercial and residential use. From offices and other public spaces, to houses, condominiums and apartments.

Constantly improving our designs and keeping up-to-date with the latest technology, we continue to produce durable tiles that meet the various needs and aesthetic preferences of very different customers.

Located in Kuching (Sarawak, East Malaysia), Seremban (Negeri Sembilan, Peninsular Malaysia), as well as Shanghai (PRC), our factories today have a combined output of 15 million square metres of tiles a year. Each one propelled by passionate individuals and a culture that celebrate creativity, so that you, too, will be inspired by what we make.
